Email: paraspathania705@gmail.com

Mobile: +91-9878105976

SKILLS

Languages: Java, JavaScript, SQL, C++
Frameworks: NodeJS, React, Tailwind CSS
Tools/Platforms: Git, GitHub, Linux, MongoDB, Visual Studio Code
Soft Skills: Teamwork, Time Management, Adaptability, Active Listening

PROJECTS

Library Management System | [GitHub](#)

Jun' 25 – Jul' 25

- Developed a Java-based Library Management System using OOP principles, ensuring modular design and maintainable code structure.
- Designed CRUD operations with JDBC to manage books, users, and issue/return transactions efficiently.
- Enhanced by using comprehensive exception handling, decreasing runtime errors related to database connectivity by 2%, and improving the application stability.

Tech: Java, JDBC, MySQL, OOP, DSA

Job Tracker | [GitHub](#)

Feb' 25 – Apr' 25

- Built a full-stack job tracking web application connecting recruiters and job seekers on a single platform
- Engineered core features including authentication, job posting, applications, and admin management modules.
- Implemented pagination on job listing pages, which enhanced user experience by decreasing bounce rate by 8%, and allowed users to browse postings faster.

Tech: PHP, MySQL, HTML, Tailwind CSS, JavaScript

Government & Corporate Documentation Portal | [GitHub](#)

Dec' 23 – Feb' 24

- Devised centralized e-District submission hub supporting high-volume digital document processing and complex workflows.
- Spearheaded the development of a centralized e-District submission hub, streamlining digital document processing for MSME, Taxation, Identity, and Student services, and improving data retrieval speed by 25%.
- Streamlined backend MySQL queries to handle concurrent sessions, maintaining 99.9% system uptime during peak loads.

Tech: HTML, CSS, JavaScript, PHP, MySQL

TRAINING

CipherSchools

Jun' 25 – Jul' 25

Data Structures and Algorithms using Java | [Link](#)

- Completed structured training on core Data Structures including arrays, linked lists, stacks, queues, trees, and graphs.
- Improved debugging, algorithmic thinking, and performance optimization skills.
- Applied UML diagrams, flowcharts, and structured documentation practices.

Tech: Data Structures and Algorithms, Java, File Handling

CERTIFICATIONS

- OCI 2025 Certified Generative AI Professional — [Oracle](#) Sep' 25
- Cloud Computing — [NPTEL](#) Jun' 25
- Computer Communications — [Coursera](#) Nov' 24

ACHIEVEMENTS

- Solved 150+ coding problems on different platforms like LeetCode, Code Chef and GeeksforGeeks.
- 4-star C++ rating on HackerRank.

EDUCATION

Lovely Professional University

Bachelor of Technology
Computer Science and Engineering | CGPA: 6.71

Phagwara, Punjab
Aug' 24 – Present

Lovely Professional University

Diploma
Computer Science and Engineering | CGPA: 7.0

Kapurthala, Punjab
Aug' 22 – Jul' 24

Anand Public Sr. Sec. School

Intermediate

Kapurthala, Punjab
Apr' 21 – Mar' 22
